

IN THE UNITED STATES DISTRICT COURT
FOR THE EASTERN DISTRICT OF VIRGINIA

Richmond Division

IN THE MATTER OF THE SEARCH OF
INFORMATION ASSOCIATED WITH
INSTAGRAM ACCOUNT TD_BOSSUPPP
THAT IS STORED AT PREMISES
CONTROLLED BY META PLATFORMS,
INC.

Case No. 3:22 sw141

Filed Under Seal

**AFFIDAVIT IN SUPPORT OF
AN APPLICATION FOR A SEARCH WARRANT**

I, Christopher M. Page, being first duly sworn, hereby depose and state as follows:

INTRODUCTION AND AGENT BACKGROUND

1. I make this affidavit in support of an application for a search warrant for information associated with a certain Instagram account that is stored at premises owned, maintained, controlled, or operated by Meta Platforms, Inc. ("Meta"), an electronic communications service and/or remote computing service provider headquartered at 1601 Willow Road in Menlo Park, California. The information to be searched is described in the following paragraphs and in Attachment A. This affidavit is made in support of an application for a search warrant under 18 U.S.C. §§ 2703(a), 2703(b)(1)(A), and 2703(c)(1)(A) to require Meta to disclose to the government copies of the information (including the content of communications) further described in Section I of Attachment B. Upon receipt of the information described in Section I of Attachment B, government-authorized persons will review that information to locate the items described in Section II of Attachment B.

2. I am a Special Agent with the United States Department of Homeland Security ("DHS"), Immigration and Customs Enforcement ("ICE"), Homeland Security Investigations

(“HSI”) and am assigned to the office in Richmond, Virginia, which is conducting a federal Grand Jury investigation referred to in this affidavit. I have been employed by HSI as a Special Agent since December 2019 and I have attended classes and course conducted by local, state, and federal agencies regarding the use of the Internet and social media platforms regarding the importation, transportation, and distribution of illegal drugs.

3. Prior to assuming my position with HSI, I was employed as a State Trooper with the Virginia Department of State Police (“VSP”) for eight years. During my time as a State Trooper, I was trained to investigate many types of state violations of law to include motor vehicle and criminal statutes. Specifically, I spent six years as a State Trooper assigned to the Counter-Terrorism and Criminal Interdiction Unit (CCI). While assigned to CCI, I investigated numerous incidents of narcotics and currency smuggling as well as other types of interstate smuggling.

4. Through investigations and training, I am knowledgeable about state and federal drug laws, and I have participated in a number of drug trafficking, money laundering, and organized crime investigations that have resulted in the arrest and conviction of numerous members of several different international and domestic DTOs for violations of state and federal drug laws, and the seizure of illegal drugs, U.S. currency, and forfeitable assets. Several of these investigations have employed the use of the Internet and social media platforms. Specifically, in this federal Grand Jury investigation numerous state and federal search warrants have been obtained of social media profiles.

5. This affidavit is intended to show merely that there is sufficient probable cause for the requested warrant and does not set forth all of my knowledge about this matter.

6. Based on my training and experience and the facts as set forth in this affidavit, there is probable cause to believe that violations of Title 21, U.S.C., § 841, Title 21, and Title 18, U.S.C.,

§§ 1956 have been committed by **THOMAS DUONG** (“**DUONG**”). There is also probable cause to search the information described in Attachment A for evidence, instrumentalities, contraband, and/or fruits of these crimes further described in Attachment B.

JURISDICTION

7. This Court has jurisdiction to issue the requested warrant because it is “a court of competent jurisdiction” as defined by 18 U.S.C. § 2711. 18 U.S.C. §§ 2703(a), (b)(1)(A), & (c)(1)(A). Specifically, the Court is “a district court of the United States . . . that has jurisdiction over the offense being investigated.” 18 U.S.C. § 2711(3)(A)(i).

PROBABLE CAUSE

8. In July 2017, Chesterfield County Police Department (“CCPD”) began investigating Lamar THOMPSON as the leader of a local drug trafficking organization (“DTO”) for distributing multi-kilogram quantities of marijuana and cocaine in Chesterfield County, VA and other surrounding areas.¹

9. This federal Grand Jury investigation has revealed THOMPSON’s source of supply for marijuana is **DUONG**, an Orange County, CA, based leader of the **DUONG** DTO. The **DUONG** DTO utilizes couriers flying commercial airlines to transport marijuana to cities across the U.S. to include VA in Richmond, Norfolk, and Northern VA; North Carolina in Charlotte, Greensboro, and Raleigh; South Carolina in Columbia, Greenville, and Charleston; New York in Syracuse and Albany; Ohio in Cincinnati and Toledo; Savannah, Georgia; Baltimore, Maryland; Tampa, Florida; Pittsburg, Pennsylvania; Charleston, West Virginia; Knoxville, Tennessee; Huntsville, Alabama; Jackson, Mississippi; Baton Rouge, Louisiana; Detroit, Michigan; and

¹ HSI joined the investigation in December 2020.

Evansville, Indiana. These same couriers then return to Orange County, CA, via commercial airlines with drug proceeds secreted in checked luggage.

10. Members of CCPD and HSI have conducted physical surveillance coupled with electronic surveillance of suspected couriers while in Richmond, VA, on more than one dozen instances. During their trips to Richmond, VA, the couriers have been observed meeting with associates of THOMPSON.

11. On September 19, 2020, CBP officers seized \$19,381 in U.S. currency from known marijuana and currency courier for the DUONG DTO, Johana MERCADO, at the San Ysidro, CA Point of Entry while MERCADO was traveling to Mexico. A cellular telephone was recovered from MERCADO and searched pursuant to border-search authority. A forensic examination of MERCADO's cellular telephone revealed photographs and text message communication with other individuals about how they can make \$2,000 per trip flying with two checked suitcases of vacuum-sealed marijuana to VA and NC and bringing U.S. currency back to CA in checked suitcases. MERCADO's text messages further revealed that once the individual arrives to the destination, **DUONG** would contact the individual and a local contact from the distribution city would arrive to the hotel and retrieve the suitcases. Location data from the forensic examination of MERCADO's telephone placed it near 20312 Loyal Avenue, South Chesterfield, VA on September 13, 2020. This location was later discovered to be an open field next to a residence, 20310 Loyal Avenue, a suspected stash location for the **DUONG** DTO.²

² At the time, 20310 Loyal Avenue, South Chesterfield, VA, was utilized by THOMPSON and his associates as a stash location and couriers were suspected of traveling to this location to distribute narcotics and obtain the proceeds to return to CA. The Loyal Avenue address is believed to be owned/occupied by the grandfather of Tyrell Fields, who was an associate of THOMPSON, until Tyrell's death on October 8, 2020. Based on physical and electronic surveillance, following Fields' death, it appeared THOMPSON and his associates no longer utilized the Loyal Avenue address.

12. Text messages from the extraction identify an individual named “TD” or “T”. Text messages between MERCADO and TD referenced setting up travel arrangements, paying couriers, and smuggling currency and marijuana. The contact information for TD had a phone number as well as a picture of an Asian male. Upon investigation the phone number and photo were found to belong to **DUONG**.

13. Instagram content for account “td__bossuppp” has previously been obtained and examined by CCPD and HSI.³ The phone number provided by Instagram for the account was (714) 235-6292. On January 11, 2022, historical phone records were requested for the provided phone number from T-Mobile. Subscriber information for the provided phone number lists the account holder and **DUONG** with an address of 7521 Edinger Avenue, Unit 3006, Huntington Beach, CA.⁴

14. The Instagram account contains dozens of photos of **DUONG** and his family and friends, many photos of high-end vehicles owned by **DUONG**, and luxury vacations enjoyed by **DUONG**.

15. A review of messages sent between “td__bossuppp” and “_babanbaban_” reveal messages and news articles about marijuana and marijuana seizures across the U.S.⁵

16. The following is a partial except from a conversation between “td__bossuppp” and

electronic surveillance, following Fields’ death, it appeared THOMPSON and his associates no longer utilized the Loyal Avenue address.

³ On December 20, 2021, Chesterfield County Circuit Court Judge Jane Pemberton authorized a search warrant for Instagram content of account “td__bossuppp.”

⁴ Based on HSI administrative subpoena records, **DUONG** is a listed lessee of 7521 Edinger Avenue, Unit 3006, Huntington Beach, CA, and **DUONG** also utilizes the address in financial documents and California Department of Motor Vehicles records.

⁵ Instagram account “_babanbaban_” is listed as private, but the profile picture is suspected to be that of Aland BABAN. BABAN has been identified through financial analysis as a frequent transactor between suspected shell companies owned by BABAN and **DUONG**.

“bhiebeahagigbehfh:”

- Bhiebeahagigbehfh: What cars do you have
- td__bossuppp: 2017 g63 Amg, 2015 cla45 Amg, 2012 cls63 Amg⁶
- Bhiebeahagigbehfh: Damn nigga u racking in the doe. The weed business is making that much mineyb
- Bhiebeahagigbehfh: Btw how u know Rohib
- td__bossuppp: Threw my x partner. How u know rohiab
- Bhiebeahagigbehfh: He used to go to the same mosque
- td__bossuppp: I’m telling u I can help u make 20k a month
- Bhiebeahagigbehfh: really damn
- Bhiebeahagigbehfh: how much investment you need
- td__bossuppp: Text me

17. Based on my training and experience, I believe the above conversation is **DUONG** telling an unknown individual that **DUONG** can help the unknown individual make \$20,000 per month in the illicit marijuana business.

18. Social media has become a heavily utilized tool by distributors of illegal narcotics to communicate. Frequent posting of photographs and videos to social media also allows law enforcement to identify other conspirators based on profile tags and messages.

19. I believe that the information held by Meta, linked to **DUONG**’s Instagram account, will contain information that will help identify **DUONG**’s source of supply, other

⁶ This federal Grand Jury investigation has revealed **DUONG** previously owned vehicles matching the description of those mentioned.

conspirators, telephone numbers, and assets derived from criminal proceeds. The information likely to be obtained from the data help by Meta is relevant and material to the ongoing federal Grand Jury investigation.

BACKGROUND CONCERNING INSTAGRAM⁷

20. Instagram is a service owned by Meta, a United States company and a provider of an electronic communications service as defined by 18 U.S.C. §§ 3127(1) and 2510. Specifically, Instagram is a free-access social networking service, accessible through its website and its mobile application, that allows subscribers to acquire and use Instagram accounts, like the target account(s) listed in Attachment A, through which users can share messages, multimedia, and other information with other Instagram users and the general public.

21. Meta collects basic contact and personal identifying information from users during the Instagram registration process. This information, which can later be changed by the user, may include the user's full name, birth date, gender, contact e-mail addresses, physical address (including city, state, and zip code), telephone numbers, credit card or bank account number, and other personal identifiers. Meta keeps records of changes made to this information.

22. Meta also collects and retains information about how each user accesses and uses Instagram. This includes information about the Internet Protocol ("IP") addresses used to create and use an account, unique identifiers and other information about devices and web browsers used to access an account, and session times and durations.

⁷ The information in this section is based on information published by Meta on its Instagram website, including, but not limited to, the following webpages: "Data Policy," <https://help.instagram.com/519522125107875>; "Information for Law Enforcement," <https://help.instagram.com/494561080557017>; and "Help Center," <https://help.instagram.com>.

23. Each Instagram account is identified by a unique username chosen by the user. Users can change their usernames whenever they choose but no two users can have the same usernames at the same time. Instagram users can create multiple accounts and, if “added” to the primary account, can switch between the associated accounts on a device without having to repeatedly log-in and log-out.

24. Instagram users can also connect their Instagram and Facebook accounts to utilize certain cross-platform features, and multiple Instagram accounts can be connected to a single Facebook account. Instagram accounts can also be connected to certain third-party websites and mobile apps for similar functionality. For example, an Instagram user can “tweet” an image uploaded to Instagram to a connected Twitter account or post it to a connected Facebook account or transfer an image from Instagram to a connected image printing service. Meta maintains records of changed Instagram usernames, associated Instagram accounts, and previous and current connections with accounts on Meta and third-party websites and mobile apps.

25. Instagram users can “follow” other users to receive updates about their posts and to gain access that might otherwise be restricted by privacy settings (for example, users can choose whether their posts are visible to anyone or only to their followers). Users can also “block” other users from viewing their posts and searching for their account, “mute” users to avoid seeing their posts, and “restrict” users to hide certain activity and prescreen their comments. Instagram also allows users to create a “close friends list” for targeting certain communications and activities to a subset of followers.

26. Users have several ways to search for friends and associates to follow on Instagram, such as by allowing Meta to access the contact lists on their devices to identify which contacts are Instagram users. Meta retains this contact data unless deleted by the user and periodically syncs

with the user's devices to capture changes and additions. Users can similarly allow Meta to search an associated Facebook account for friends who are also Instagram users. Users can also manually search for friends or associates.

27. Each Instagram user has a profile page where certain content they create and share ("posts") can be viewed either by the general public or only the user's followers, depending on privacy settings. Users can customize their profile by adding their name, a photo, a short biography ("Bio"), and a website address.

28. One of Instagram's primary features is the ability to create, edit, share, and interact with photos and short videos. Users can upload photos or videos taken with or stored on their devices, to which they can apply filters and other visual effects, add a caption, enter the usernames of other users ("tag"), or add a location. These appear as posts on the user's profile. Users can remove posts from their profiles by deleting or archiving them. Archived posts can be reposted because, unlike deleted posts, they remain on Meta's servers.

29. Users can interact with posts by liking them, adding or replying to comments, or sharing them within or outside of Instagram. Users receive notification when they are tagged in a post by its creator or mentioned in a comment (users can "mention" others by adding their username to a comment followed by "@"). An Instagram post created by one user may appear on the profiles or feeds of other users depending on a number of factors, including privacy settings and which users were tagged or mentioned.

30. An Instagram "story" is similar to a post but can be viewed by other users for only 24 hours. Stories are automatically saved to the creator's "Stories Archive" and remain on Meta's servers unless manually deleted. The usernames of those who viewed a story are visible to the story's creator until 48 hours after the story was posted.

31. Instagram allows users to broadcast live video from their profiles. Viewers can like and add comments to the video while it is live, but the video and any user interactions are removed from Instagram upon completion unless the creator chooses to send the video to IGTV, Instagram's long-form video app.

32. Instagram Direct, Instagram's messaging service, allows users to send private messages to select individuals or groups. These messages may include text, photos, videos, posts, videos, profiles, and other information. Participants to a group conversation can name the group and send invitations to others to join. Instagram users can send individual or group messages with "disappearing" photos or videos that can only be viewed by recipients once or twice, depending on settings. Senders can't view their disappearing messages after they are sent but do have access to each message's status, which indicates whether it was delivered, opened, or replayed, and if the recipient took a screenshot. Instagram Direct also enables users to video chat with each other directly or in groups.

33. Instagram offers services such as Instagram Checkout and Facebook Pay for users to make purchases, donate money, and conduct other financial transactions within the Instagram platform as well as on Facebook and other associated websites and apps. Instagram collects and retains payment information, billing records, and transactional and other information when these services are utilized.

34. Instagram has a search function which allows users to search for accounts by username, user activity by location, and user activity by hashtag. Hashtags, which are topical words or phrases preceded by a hash sign (#), can be added to posts to make them more easily searchable and can be "followed" to generate related updates from Instagram. Meta retains records of a user's search history and followed hashtags.

35. Meta collects and retains location information relating to the use of an Instagram account, including user-entered location tags and location information used by Meta to personalize and target advertisements.

36. Meta uses information it gathers from its platforms and other sources about the demographics, interests, actions, and connections of its users to select and personalize ads, offers, and other sponsored content. Meta maintains related records for Instagram users, including information about their perceived ad topic preferences, interactions with ads, and advertising identifiers. This data can provide insights into a user's identity and activities, and it can also reveal potential sources of additional evidence.

37. In some cases, Instagram users may communicate directly with Meta about issues relating to their accounts, such as technical problems, billing inquiries, or complaints from other users. Social networking providers like Meta typically retain records about such communications, including records of contacts between the user and the provider's support services, as well as records of any actions taken by the provider or user as a result of the communications.

38. For each Instagram user, Meta collects and retains the content and other records described above, sometimes even after it is changed by the user (including usernames, phone numbers, email addresses, full names, privacy settings, email addresses, and profile bios and links).

39. As previously described, **DUONG** is suspected of engaging in the trafficking of marijuana and bulk currency across the U.S. and then posts photographs of items purchased with the proceeds derived. In my training and experience, evidence of who was using Instagram and from where, and evidence related to criminal activity of the kind described above, may be found in the files and records described above. This evidence may establish the "who, what, why, when,

where, and how” of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or, alternatively, to exclude the innocent from further suspicion.

40. As previously mentioned, previous information obtained from Meta allowed law enforcement to identify other conspirators and a previously unknown phone number utilized by **DUONG**. For example, the stored communications and files connected to an Instagram account may provide direct evidence of the offenses under investigation. Based on my training and experience, instant messages, voice messages, photos, videos, and documents are often created and used in furtherance of criminal activity, including to communicate and facilitate the offenses under investigation.

41. In addition, the user’s account activity, logs, stored electronic communications, and other data retained by Meta can indicate who has used or controlled the account. This “user attribution” evidence is analogous to the search for “indicia of occupancy” while executing a search warrant at a residence. For example, subscriber information, messaging logs, photos, and videos (and the data associated with the foregoing, such as date and time) may be evidence of who used or controlled the account at a relevant time. As an example, because every device has unique hardware and software identifiers, and because every device that connects to the Internet must use an IP address, IP address and device identifier information can help to identify which computers or other devices were used to access the account. Such information also allows investigators to understand the geographic and chronological context of access, use, and events relating to the crime under investigation.

42. Account activity may also provide relevant insight into the account owner’s state of mind as it relates to the offenses under investigation. For example, information on the account may indicate the owner’s motive and intent to commit a crime (e.g., information indicating a plan

to commit a crime), or consciousness of guilt (e.g., deleting account information in an effort to conceal evidence from law enforcement).

43. Based on the financial investigation being conducted, **DUONG** is suspected of utilized multiple bank accounts and institutions to launder the proceeds of his marijuana trafficking operations. Other information connected to the use of Instagram may lead to the discovery of additional evidence. For example, associated and linked accounts, stored communications, photos, and videos may reveal services used in furtherance of the crimes under investigation or services used to communicate with co-conspirators. In addition, stored communications, contact lists, photos, and videos can lead to the identification of co-conspirators and instrumentalities of the crimes under investigation.

44. Based on the previously mentioned Meta production for **DUONG**'s account, it is believed that **DUONG** is still utilizing Meta's servers to communicate and display his lifestyle which is suspected to be funded by the illegal proceeds of his marijuana distribution network. Therefore, Meta's servers are likely to contain stored electronic communications and information concerning subscribers and their use of Instagram. In my training and experience, such information may constitute evidence of the crimes under investigation including information that can be used to identify the account's user or users.

CONCLUSION

45. Based on the forgoing, I request that the Court issue the proposed search warrant.

46. Pursuant to 18 U.S.C. § 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant. The government will execute this warrant by serving the warrant on Meta. Because the warrant will be served on Meta, who will then compile

the requested records at a time convenient to it, reasonable cause exists to permit the execution of the requested warrant at any time in the day or night.

REQUEST FOR SEALING

47. I further request that the Court order that all papers in support of this application, including the affidavit and search warrant, be sealed until further order of the Court. These documents discuss an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation. Accordingly, there is good cause to seal these documents because their premature disclosure may give targets an opportunity to flee/continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, notify confederates, or otherwise seriously jeopardize the investigation.

Respectfully submitted,

Christopher M. Page

Honorable Mark R. Colombell
UNITED STATES MAGISTRATE JUDGE

ATTACHMENT A

Property to Be Searched

This warrant applies to information associated with Instagram account td__bossuppp, that is stored at premises owned, maintained, controlled, or operated by Meta Platforms, Inc., a company headquartered at 1601 Willow Road, Menlo Park, California.

ATTACHMENT B

Particular Things to be Seized

I. Information to be disclosed by Meta Platforms, Inc. (“Meta”)

To the extent that the information described in Attachment A is within the possession, custody, or control of Meta, regardless of whether such information is located within or outside of the United States, and including any messages, records, files, logs, or other information that has been deleted but is still available to Meta, or has been preserved pursuant to a request made under 18 U.S.C. § 2703(f), Meta is required to disclose the following information to the government for each account or identifier listed in Attachment A:

- A. All business records and subscriber information, in any form kept, pertaining to the account, including:
 - 1. Identity and contact information (past and current), including full name, e-mail addresses, physical address, date of birth, phone numbers, gender, hometown, occupation, websites, and other personal identifiers;
 - 2. All Instagram usernames (past and current) and the date and time each username was active, all associated Instagram and Facebook accounts (including those linked by machine cookie), and all records or other information about connections with Facebook, third-party websites, and mobile apps (whether active, expired, or removed);
 - 3. Length of service (including start date), types of services utilized, purchases, and means and sources of payment (including any credit card or bank account number) and billing records;
 - 4. Devices used to login to or access the account, including all device identifiers, attributes, user agent strings, and information about networks and connections, cookies, operating systems, and apps and web browsers;
 - 5. All advertising information, including advertising IDs, ad activity, and ad topic preferences;
 - 6. Internet Protocol (“IP”) addresses used to create, login, and use the account, including associated dates, times, and port numbers, December 20, 2021, to August 1, 2022;
 - 7. Privacy and account settings, including change history; and

8. Communications between Meta and any person regarding the account, including contacts with support services and records of actions taken;
- B. All content (whether created, uploaded, or shared by or with the account), records, and other information relating to videos (including live videos and videos on IGTV), images, stories and archived stories, past and current bios and profiles, posts and archived posts, captions, tags, nametags, comments, mentions, likes, follows, followed hashtags, shares, invitations, and all associated logs and metadata December 20, 2021, to August 1, 2022;
- C. All content, records, and other information relating to communications sent from or received by the account December 20, 2021, to August 1, 2022, including but not limited to:
 1. The content of all communications sent from or received by the account, including direct and group messages, and all associated multimedia and metadata, including deleted and draft content if available;
 2. All records and other information about direct, group, and disappearing messages sent from or received by the account, including dates and times, methods, sources and destinations (including usernames and account numbers), and status (such as delivered, opened, replayed, screenshot);
 3. All records and other information about group conversations and video chats, including dates and times, durations, invitations, and participants (including usernames, account numbers, and date and time of entry and exit); and
 4. All associated logs and metadata;
- D. All content, records, and other information relating to all other interactions between the account and other Instagram users December 20, 2021, to August 1, 2022, including but not limited to:
 1. Interactions by other Instagram users with the account or its content, including posts, comments, likes, tags, follows (including unfollows, approved and denied follow requests, and blocks and unblocks), shares, invitations, and mentions;
 2. All users the account has followed (including the close friends list), unfollowed, blocked, unblocked, muted, restricted, or denied a request to follow, and of users who have followed, unfollowed, blocked, unblocked, muted, restricted, or denied a request to follow the account;
 3. All contacts and related sync information; and
 4. All associated logs and metadata;
- E. All records of searches performed by the account December 20, 2021, to August 1, 2022; and

- F. All location information, including location history, login activity, information geotags, and related metadata December 20, 2021, to August 1, 2022.

Meta is hereby ordered to disclose the above information to the government within **14 DAYS** of issuance of this warrant.

II. Information to be seized by the government

All information described above in Section I that constitutes fruits, contraband, evidence, and instrumentalities of violations of Title 21, U.S.C., § 841, Title 21, U.S.C., § 843 (b), Title 21, U.S.C., § 846, Title 21, U.S.C., § 848, Title 21, U.S.C., § 856, and Title 18, U.S.C., §§ 1956 and 1957, those violations involving **THOMAS DUONG** and occurring after **[[DATE]]**, including, for each account or identifier listed on Attachment A, information pertaining to the following matters:

- A. Evidence indicating the sale of illegal drugs, laundering of the proceeds from the sale of illegal drugs, and preparatory steps taken in furtherance of the scheme
- B. Evidence indicating how and when the account was accessed or used, to determine the geographic and chronological context of account access, use, and events relating to the crime under investigation and to the account owner;
- C. Evidence indicating the account owner's state of mind as it relates to the crime under investigation;
- D. The identity of the person(s) who created or used the account, including records that help reveal the whereabouts of such person(s).
- E. The identity of the person(s) who communicated with the account holder about matters relating to narcotics distribution and money laundering, including records that help reveal their whereabouts.

**CERTIFICATE OF AUTHENTICITY OF DOMESTIC
RECORDS PURSUANT TO FEDERAL RULES OF
EVIDENCE 902(11) AND 902(13)**

I, _____, attest, under penalties of perjury by the laws of the United States of America pursuant to 28 U.S.C. § 1746, that the information contained in this certification is true and correct. I am employed by Meta Platforms, Inc. (“Meta”), and my title is _____. I am qualified to authenticate the records attached hereto because I am familiar with how the records were created, managed, stored, and retrieved. I state that the records attached hereto are true duplicates of the original records in the custody of Meta. The attached records consist of _____ **[GENERALLY DESCRIBE RECORDS (pages/CDs/megabytes)]**. I further state that:

a. all records attached to this certificate were made at or near the time of the occurrence of the matter set forth by, or from information transmitted by, a person with knowledge of those matters, they were kept in the ordinary course of the regularly conducted business activity of Meta, and they were made by Meta as a regular practice; and

b. such records were generated by Meta’s electronic process or system that produces an accurate result, to wit:

1. the records were copied from electronic device(s), storage medium(s), or file(s) in the custody of Meta in a manner to ensure that they are true duplicates of the original records; and
2. the process or system is regularly verified by Meta, and at all times pertinent to the records certified here the process and system functioned properly and normally.

I further state that this certification is intended to satisfy Rules 902(11) and 902(13) of the Federal Rules of Evidence.
